Changes to ValleyRide bus service system to be implemented beginning Monday (January 6)

BOISE – Numerous service changes to the ValleyRide bus route system will be implemented beginning Monday, January 6, 2014.

The service changes will affect fixed-line bus service in Boise and Nampa/Caldwell, and inter county service between Ada and Canyon counties. The service changes are designed to: improve on-time performance; accommodate the new Happy Day Transit Center (which will also open January 6, 2014) in Caldwell; fill identified needs for additional bus service; and eliminate unproductive bus route segments.

Most of the changes involve minor timing adjustments, but there are route changes to routes #8, #28, #42, #43 and #44, service cuts to routes #8 and #45 and additional service on routes #8X, #9X and #42.

To learn more about the upcoming service changes, you can visit www.valleyregionaltransit.org
